'The heart of God in the heart of the country'

17th June, 2016

Dear Family,

The season of mowing is upon us and with all the rain and sun we have had recently we can occasionally see the top of Phil's head as he goes through the long grass! The grounds team are doing a great job and the place looks wonderful. Thank you!

Stephen

Stephen has had his stem cell transplant and is recovering well in Heartlands Hospital, Birmingham. He is in good spirits, but feeling tired as his new immune system gets up and running. It is now a waiting game and we continue to pray for complete success. The Lord has done amazing things so far and we know He will not desert us. Thank you so much for all your prayer, and loving, support, please keep going! He posts regularly on Facebook and he has started a Facebook page called 'A Father's Heart' on which he records his current journey.
